REASONS FOR ALLOWANCE

1. Claims 18-35 are allowed in light of the Applicant's amendment and arguments. The following is a statement of the examiner's reasons for allowance. The present application relates to an image display apparatus for displaying a two-dimensional image of an object including a three-dimensional object. Regarding claims 18, 24, 25 and 30, the prior art fails to disclose a microlens array assembly comprising at least one micro convex lens board having two lens array halves mounted substantially parallel to each other, each lens array half comprising a transparent flat plate with a plurality of convex lenses arranged in a matrix on each flat surface thereof and the lens array halves are aligned appropriately in the micro lens array to thereby form a lens system for each of the micro convex lens in each matrix. The claimed invention is therefore considered to be in condition for allowance as being novel and non-obvious over prior art.

2. The prior art taken either singly or in combination fails to anticipate or fairly suggest the limitations of the independent claims, in such a manner that a rejection under 35 USC 102 or 103 would be improper. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
